

THE MORGAN
— San Simeon —
FACT SHEET

DESCRIPTION: The Morgan at San Simeon is a gracious boutique hotel located on the majestic California Central Coast in San Simeon, CA, minutes away from Hearst Castle and Cambria. Named in honor of Julia Morgan, the immensely talented architect of Hearst Castle, the hotel has recently been renovated to reflect her style and grace.

Rooms and common areas feature reproductions of her original meticulous and colorful drawings for various sites in and around the Castle. Many of the sites were completed, some were not, but through the illustrations we can catch a glimpse into the process by which Morgan and Hearst collaborated to create the masterpiece that is Hearst Castle. All of these works are reproductions of works housed in the archives of the Hearst Castle museum and most cannot be viewed by the general public.

Rooms feature fluffy goose-down covered beds, flat-screen televisions, clock radios with MP3 capabilities, soothing lighting and tasteful decor. Many of the rooms offer partial ocean views, fireplaces and/or whirlpool tubs.
